## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Group I claims 17-26, 35-40, 47-52, 54 and 56 in the reply filed on April 20, 2005 is acknowledged. Applicant also properly elected species and considers claims 17 and 23 to be generic.
2. Claims 17 and 23 are considered as generic and are allowable. Accordingly, the restriction requirement to species in the elected Group I is hereby withdrawn.

### **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-16, 27-34, 41-46, 53 and 55 (drawn to non-elected claims w/o traverse in the paper filed April 20, 2005).

In the title, delete "and methods of fabrication".

### ***Allowable Subject Matter***

4. Claims 17-26, 35-40, 47-52, 54 and 56 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Certainly, the art of packaging optically interactive electronic devices includes many of the individual elements of applicant's claimed devices, yet fails to suggest the invention as a whole, as comprehensively claimed, which is an invention characterized by location of claimed adhesive relative to an "active surface of the packaged optically interactive device," "bond pads," and/or "transparent cover," combined with a particularly claimed configuration of "transparent cover" such as "*exposed through* a layer of encapsulant."

Applicant's devices as claimed are a novel result of a simplified process, which are advantageously less expensive than devices made by more complicated methodology in the prior art of packaging optically interactive devices, where adhesive is applied differently, for example.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patents cited disclose various elements of applicant's claimed devices, yet none of the references alone or in combination suggest applicant's claimed devices, since there is no sensible motivation to arbitrarily pick and choose among various limitations from the references.
